QUINT GOEKE JOINS CHANDLER LIMITED

Legal counsel and financial guidance responsibilities add depth to organization

Shell Rock, IA – April 2013 ... Chandler Limited, recognized globally for signal processing and related music and audio products that deliver the classic analog warmth recording and performing professional musicians seek, is pleased to announce Quint Goeke has joined Chandler Limited. With a background that encompasses both the practice of law and finance/accounting, Goeke is well positioned to help guide the family business as it transitions to a new generation of leadership. His position commenced March 1st.

In his new role, Goeke serves as the company's legal counsel, where he is responsible for matters involving legal and tax issues, contract negotiations, trademarks, and other legal decisions affecting the corporation. As the company's financial officer, he prepares and files tax returns, prepares financial reports, oversees account payables and receivables, and manages general accounting procedures. Additional management responsibilities include oversight of company personnel, sales, marketing, plus product distribution and inventory control.

Goeke is well suited to handle his new position at Chandler Limited. After graduating from Wartburg College in Waverly, Iowa with a BA in Finance/Accounting, he worked in the financial sector handling mortgage banking and investments. After receiving his J.D. from the University of Missouri law school, he was admitted to the Iowa Bar in 1998. He then joined his father's private law practice, where he practiced in the areas of tax, corporate contracts, real estate, and financial counseling. In recent years, he has worked on a number of high profile business cases for Chandler Limited and, as a result, has a firm understanding of company's operations.

Goeke commented on his new role with Chandler Limited, "I'm delighted to be joining the family business. Chandler Limited has developed into a highly regarded developer of signal processing, power amplification, and related products for musicians and audio professionals and I welcome the opportunity to help take the company to the next level. In the short time I've been here, I've learned a lot and I look forward to contributing to the company's continuing growth as we move forward."

Chandler Limited owner and chief product designer Wade Goeke commented on his brother's recent appointment. "Chandler is a family business," said Wade. "For the most part, my mother and I have run the day-to-day operations since we started. Over the years, Quint and my father, Dale, have served as advisers and have provided legal counsel. They have helped with important business matters such as contract negotiations and have had a huge impact during negotiations with potential business partnerships. Quint's appointment to full-time involvement with the company is an important step as we prepare for the myriad of opportunities that lie ahead. I'm very happy to have him joining us."
